WEEK	WARM UP	MAIN SET	COOL DOWN	DURATION (EST), DISTANCE, REPETITION	NOTES
<p>8-10 months before try to incorporate this session 1-2 times a week.</p> <p>Laying down the fundamentals and kick start the training.</p>	<p>4x 150m swim as 50 freestyle 50 backstroke or breaststroke 50 freestyle 30 seconds rest</p>	<p>6 x 50m freestyle swim (back line) 20 seconds rest</p> <p>6 x 200m Swim (hip driven rotation) 30 seconds rest</p>	<p>4 x 50m swim with strong kick 20 seconds rest</p>	<p> 2,300m</p> <p> 50-minute</p> <p> 2 x this week</p>	<p>Focus: Back Line Drill Being able to swim in a straight line is essential in open water. If you can get a lane to yourself, practice swimming in the middle of the lane keeping the black line you often find at the bottom of the pool directly beneath you. You need to practice pushing water to the back of the pool and moving forward in a straight line, rather than snaking. ✓</p> <p>Focus: Hip Driven Rotation Freestyle Swimming freestyle but with dramatically increased rotation generated from the hips, rather than just lifting your head to breathe.</p>
<p>6-8 months before try to incorporate this session 1-2 times a week.</p> <p>Start to put together some longer more challenging sets to improve swimming endurance.</p>	<p>2 x 300m continuous swim 45 seconds rest 5 x 100m swim with a float (if there is one available)</p>	<p>2 x 25m 2 x 50m 2 x 100m (every couple of strokes strokes) 20 seconds rest</p> <p>2 x 200m Swim 30 seconds rest 4 x 100m Swim (sight once or twice every 100m) 15 seconds rest</p>	<p>3 x 50m backstroke 3 x 50m breaststroke 20 seconds rest</p>	<p> 3,000m</p> <p> 70-minute</p> <p> 2-3 x this week</p>	<p>Focus: Sighting In open water, you need to make sure you can sight. You won't be able to see the bottom of the lake, so you need to pick a point in the horizon – something clear and obvious that isn't going to move. Swim front crawl, instead of turning your head to the side to breath, lift your head up, take a breath, sight, then continue turning your head to side until it's back in the water. Start by repeating lifting your head to sight like this every couple of strokes.</p>
