Extension Itinerary:

Day 12 / Sunday 17th September 2023 | Arusha - Serengeti National Park

This optional safari will start on Day 12 of our Kilimanjaro Trek challenge. Instead of flying back to the UK with the rest of the group today, you transfer to the stunning Serengeti National Park.

This transfer will take several hours and give your legs a good old rest after all that trekking! Driving via the Ngorongoro Area, you'll leave the highlands behind and descend into the heart of wild Africa – the Serengeti National Park – with its endless plains, rolling into the distance as far as the eye can see. Along the way, you stop for a picnic lunch and also enjoy a game drive, before finally arriving at your overnight tented lodge in the Serengeti.

Day 13 / Monday 18th September 2023 | Serengeti National Park

After breakfast at the lodge, you pack your picnic lunch and embark on a full game drive, into the vast plains of the magnificent Serengeti, home to hundreds of amazing animal species. Each moment of today's adventure will stimulate your senses.

The Serengeti is world famous for its diversity. You're likely to see lions, leopards, elephants, cheetahs and water buffalos. You may also spot hyenas, gazelles, crocodiles, giraffes, zebras, monkeys, baboons, hippos and rhinos. The hundreds of bird species, both endemic and migrating from the Eurasia, are a special bonus for birdwatchers.

This awesome national park is also home to one of the natural wonders of the world – the Great Migration of zebra and wildebeest, as they traverse the plains in their thousands, risking their lives with the predators they attract, who are also just trying to stay alive. It's humbling to watch.

After a full day of wildlife watching, you finish the day with dinner at the lodge in the Serengeti.

Day 14 / Tuesday 19th September 2023 | Serengeti - Ngorongoro Crater - Arusha

After an early breakfast at the lodge, you'll transfer to the magnificent 600m Ngorongoro Crater for another full-day game drive, with a picnic lunch.

Supported by a year-round water supply and fodder, the Ngorongoro Crater is one of the most densely crowded African wildlife areas in the world, with an estimated 30,000 animals!

Home to some of Tanzania's last remaining black rhinos, the crater also gives a home to wildebeests, zebras, buffalos, warthogs, hippos, and giant African elephants. That's not even to mention the national park's huge population of predators, including lions, hyenas, jackals, cheetahs and the ever-elusive leopard. In the late afternoon, the safari comes to an end and you'll transfer back to Arusha for an overnight stay.

Day 15 & 16 / Wednesday 20th & Thursday 21st September 2023 | Arusha – UK
